

PANICAFÉ

⊕ • WE ARE

A chain of stores specializing in bakery, pastry and coffee, with a strong concept that sets itself apart by providing a true experience centered around:

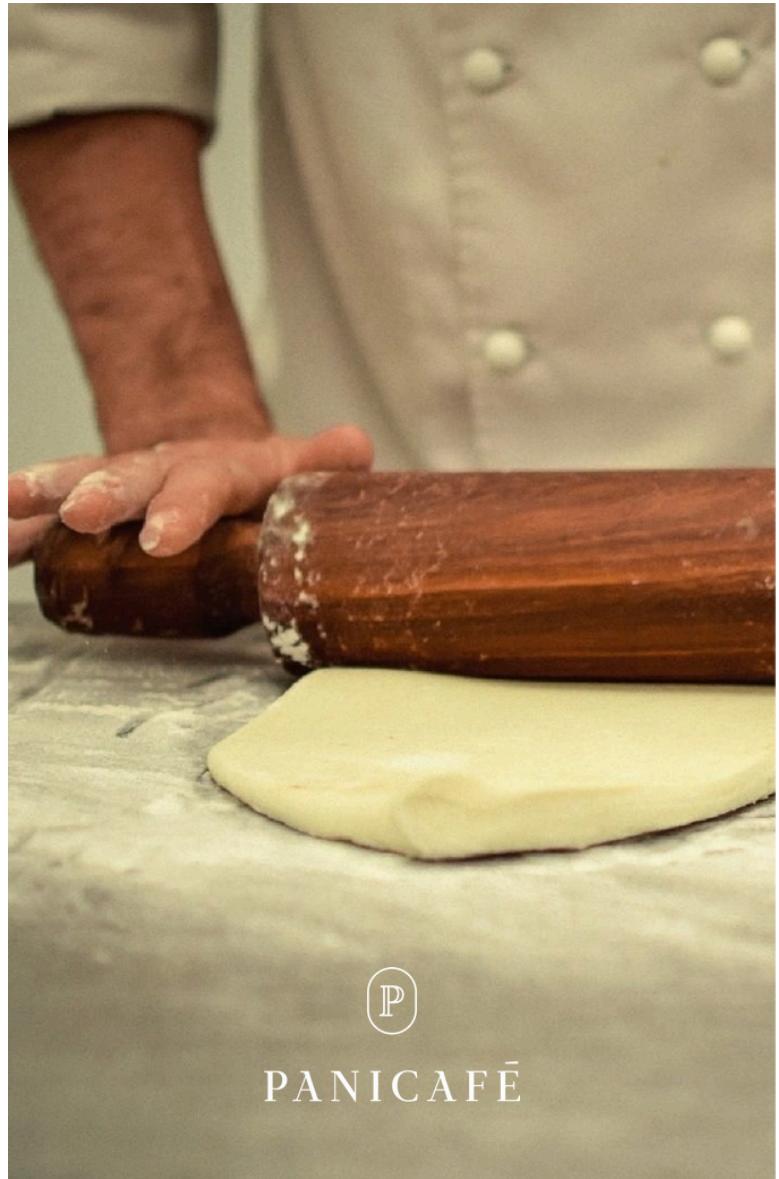

Q1 QUALITY

We offer homemade products with fresh and quality ingredients, following the path of the artisan to back the “taste of the good old days” that was achieved only by the hands of our grandmothers.

We make our bread, pastries, croissants, and all bakery products with great care and under the experienced guidance of our Master Baker and his team, but it is the sourdough that does the magic, our hands only guiding it to create exquisite and distinctive products.

02 DESIGN

Our stores are designed to provide a warm, welcoming, and pleasant space, where different areas merge: glass galleries with outdoor views, spaces with wide tables and comfortable chairs to enjoy or work, and a careful display of bakery for customers to come in, be tempted and order! In PANICAFÉ our product can be enjoyed sitting down but it is also perfect for take away!

Every detail of our decoration and ambiance is thoughtfully designed to make our customers feel comfortable during their visit and want to come back soon.

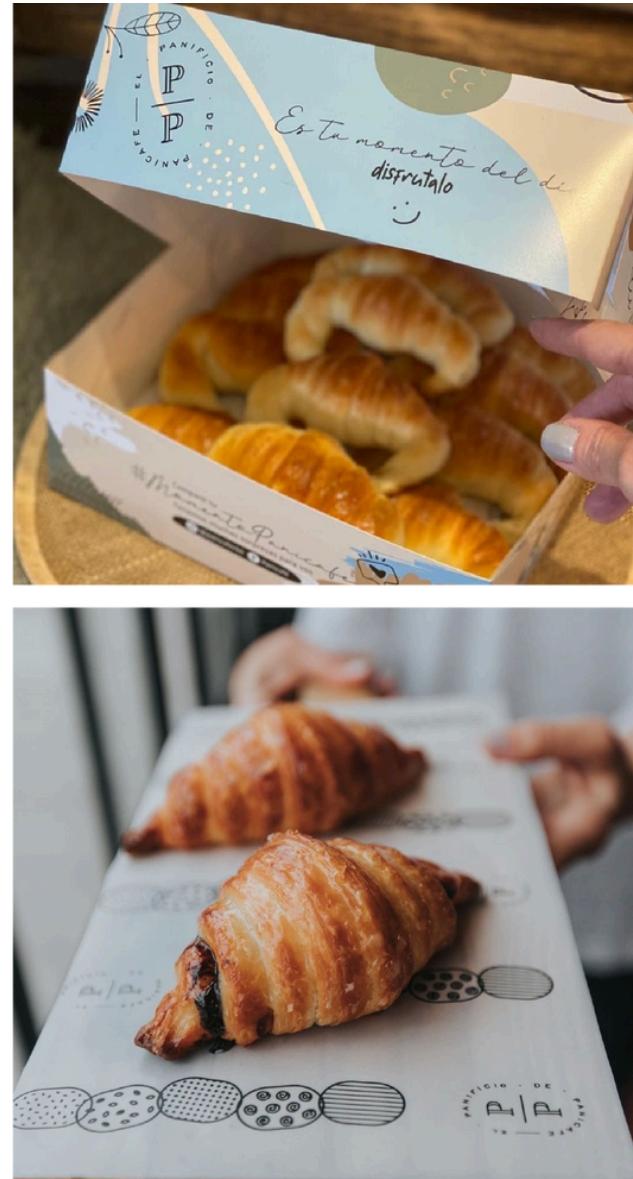

03 SERVICE

We distinguish ourselves by the way we do things. Not only in terms of the quality of our products, but also with a careful customer service, expressed always with the same enthusiasm as our parents and grandparents.

We instill in each member of our team the love for hospitality and service that has always distinguished the Europeans.

CUSTOMERS

We target a broad segment of people with a medium to medium-high socio-economic level, who seek and value high-quality products and moments.

We offer a mass-consumption product, which allows us to approach customers of all ages, from children to seniors, both women and men.

We have a wide offering, making us the ideal excuse to enjoy and share excellent products at any time of the day.

ABOUT US

PANICAFÉ was founded in Cordoba in 2015 with the idea of creating a different space and the ambition of conquering a demanding audience. A concept that can ensure quality in everything we do.

With honesty and hard work, we grew steadily year after year to position ourselves as a reference to the industry. We now have six stores in town, reaching every corner of this city, the second largest in Argentina, where big brands from the capital city of Buenos Aires has failed to established themselves.

PANICAFÉ not only managed to lead the coffee / bakery segment, but also attracted the attention of investors from other provinces and countries. This fills us with pride and encourages us to keep dreaming big! That's why we launched our master franchise program, with the aim of replicating our success in other countries.
